Monetary. There is no activity in Stocks, and quotations are nominal. We have heard of no sales during the week. The interest due on the bonds of the Corporation, here, and in New York, was, as usual, promptly met. The Bank of the Old Deminion has declared a semi-annual dividend of 3 pet. payable not his purpose yesterday when the floor was on the 15th. Stocks in New York are inactive. and on Friday sales of Virginia 6's were made at 903. Money here is not in quite such pressing demand, but the market may yet be quoted tight.—
The Banks are discounting very sparingly. In
New York, the money market continues close, and the pressure is in no degree abated. The demand from all quarters is strong, and 7 23 ct. is the rul-ing rate for first class loans. In discounts, business in the open market is brought to a stand still, and till some relief is felt, little progress can be made on other than "gilt edge" short bills."—
